Dear Patient,

I am both excited and sad to inform you of some upcoming changes to my practice. After 13 ½ years of providing care to patients in Willard and surrounding communities I will be transitioning my practice to CoxHealth Center Chesterfield, located in Chesterfield Village in Springfield. This was a difficult decision, but one that ultimately will benefit my patients, career and family. It has truly been my pleasure to care for each and everyone one of you. Therefore, it is my hope that you will continue to allow me to care for you at the Chesterfield clinic.

Starting February 16th, I will be seeing patients every Friday at CoxHealth Center Chesterfield. I will be fully transitioned to Chesterfield starting April 2nd, therefore, my last day to see patients in Willard will be Wednesday, March 28th. If you have an existing appointment scheduled in Willard after April 2nd, my staff will be reaching out to you to reschedule your appointment. Alternatively, you may call the Willard clinic to have your appointment rescheduled.

CoxHealth plans to keep the Willard clinic open after my departure. The clinic will be staffed by a nurse practitioner as well as Dr. Corbin VanDeWege who will be seeing patients two days a week starting the week of April 2nd. I do understand it will not be possible or desirable for some patients to travel to Springfield to see me at my new location. For those patients wishing to continue to receive care in Willard, I encourage you to continue to receive excellent medical care at the Willard clinic under the direction and guidance of Dr. VanDeWege.

My staff and I at Willard are here to help you through this transition so please reach out to us if you have questions or concerns. If you would like to seek primary care options outside of Willard or my new location in Springfield, I would recommend you call 269-INFO to locate a physician within Cox who is currently accepting new patients.

It has been my honor to serve you and I wish you happiness and great health.

Sincerely,

Louis Krenn, MD
